SPRINT
GROUP

Keep everything to hand with our modular back bar system.

Featuring a smart cantilever design and giving an open look with no divisions, this stainless steel back bar system can comprise sinks, drainers, shelving, beer stations and ice wells.

The Uni-Bar System simply bolts together, allowing modules to be changed or moved with ease.

All modules feature 304 stainless steel tops and adjustable shelving for easy cleaning.

Key features

- At Sprint Group we realise life behind bars can be stressful and at busy periods you need everything to hand. Thanks to Unique Bar Solutions you can find that 'special glass' quickly without searching behind shelf dividers.
- All our drainer shelves feature heavy duty drying grids with stainless steel 'pull out' drain pans
- 300mm deep ice wells are standard with 50mm insulation and bottom drainer plate to keep ice frozen longer
- All sinks and hand basins come complete with taps and drain fittings
- Shelves can be easily adjusted to accommodate the tallest glasses or bottles
- Glass washer basket racks feature a stainless steel 'pull out' drain pan, ensuring no more puddles behind the bar
- Bottom shelves simply lift up for easy cleaning, no fiddly screws or bolts to remove

Benefits of the Uni-Bar

- Modern cantilever design
- Maximized storage capacity for glasses creating a more elegant bar
- Modules can be moved to accommodate last minute changes - or added if you expand
- Open plan design allows better productivity, which leads to increased profitability
- Manufactured in stainless steel for an easy clean, hygienic work surface
- Will outlast any timber bar, making The Uni-Bar System more cost effective.

In line with our policy to continually develop and improve our products, Sprint Group reserves the right to change specifications without notice.
